

# VersiColor RGBW Drink Holder w/ LED Lit Base

Part #: 81432SS-RGBW

## Features

- Stainless steel housing extends down in cup holder for high-end look and functions to hold rubber liner in place
- Rubber liner with cup stabilizers holds drinks securely in place
- LEDs at the base provide unique color patterns inside and project to the rim
- Simple installation - cut hole, wire and push in hole
- Added wire strain relief prevents any damage to the light during installation
- IP66 rated, watertight LED strip
- Reverse Polarity Protected
- Constant current electronics design ensures consistent light output under varying input voltages

## Product Details

Bezel Material	Stainless Steel
Housing Material	Polycarbonate
Dimensions	3.54"L x 3.62"W x 4.48"D
Drainage	Weep Hole Drainage
LED Color	RGBW*
Voltage	12V DC
Wattage [RGB & RGBW ALL ON]	RGB: 2.2W   White: 0.8W   RGBW: 2.9W
Current	RGB: 0.18A   White: 0.06A
Operating Temp	0°C - +70°C
IP Rating	IP66

\*In order for the RGBW option to function properly, an RGBW controller is needed. See controller literature sheet for options and specifications.
