

# DuoFlo Sprayer

## Features

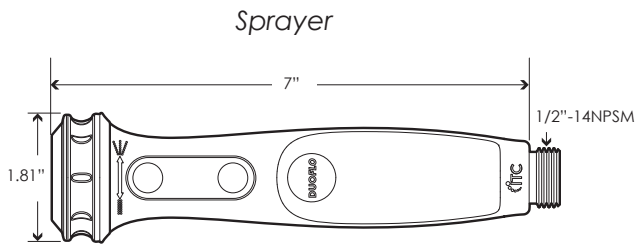

- Smooth rotating head enables selection between two different flow patterns including shower or direct spray
- Textured, rubberized grip allows users to securely grasp shower and prevents slippage
- Two flow strengths can be adjusted by a light or firm press of the on/off switch
- Intuitive smooth operation can be done with one hand
- Solid brass interior prevents any corrosion in harsh marine environments
- Multiple mounting options available to provide a solution for any application
- Decorative 316 stainless steel bezel hides mounting screws and provides a high end finished look

## Product Details

Hose Length	8 Feet
Pressure Range	Up to 100 PSI
Material - Internal	Brass
Material - Housing	ABS
Material - Bezel	316 Stainless Steel
Material - Hose	Nylon or Stainless Steel
Fitting	1/2" - 14 NPSM

\*cold application only
